Notice to the Mercantile Public.

The Post-Master General and Director of Telegraphs deems it his duty to let the Public, especially the Mercantile portion of it, know—
1st. That, in accordance with the regulations of this department, all complaints respecting the mislaying or loss of letters are immediately attended to, and diligent search made for the missing correspondence, and steps taken to punish those in fault, if such there be.
2nd. That anonymous complaints through the Press will not be taken as a basis for any steps whatever, nor will any inquiry be instituted on such ground.
3rd. That, notwithstanding, a morning paper of this city having referred, in a recent issue, to loss of correspondence in August last (a time when, as everybody knows, the Post and Telegraph Department had not been reorganized) the three merchants alluded to are requested to lay particulars before this Department, so that the steps prescribed by the Regulations may be taken forthwith.
4th. That all persons having any complaints pending are, in like manner, requested to at once lay them before this Department, in any shape, provided that they be signed, and they shall meet immediate attention, as it is the first duty of the Department to inspire confidence in the public, and especially the mercantile public, and to omit no possible effort to bring the truth to light in all cases.

Me es grato comunicar a Vds el resultado satisfactorio del nuevo examen quimico del 'Flu do Little' que acabo de practicar sobre una muestra de este especifico enviada por Vds a este laboratorio el 12 del corr. y fabricado por Morris Little e Hijo en Inglaterra.
Confrontando el analisis de esta muestra con mi analisis del mismo especifico practicado en Febrero de 1879 encuentro un aumento considerable en su grado de concentracion; su densidad es superior, la proporcion de fenoles contenidos en los aceites es mayor, y en una palabra lo considero no solo superior al producto primitivo, sino el mas concentrado y activo de cuantos de su clase he tenido ocasion de examinar hasta la fecha. Esta observacion se refiere, se entiende, esclusivamente a los especificos contra la sarna, que tienen por base los aceites Hidro carburados y fenoles del alquitran y que no deben su eficacia al arsenico, al azufre, o al tabaco, sustancias que no existen en el 'Fluido Little.' Apesar de su mayor concentracion el Fluido se mezcla con el agua fria con la misma facilidad y perfeccion como antes.
Me repito de Vds

TREN ESPRESO IDA Y VUELTA
Habiendo vendido el magnifico y valioso establecimiento conocido por Blandengues, al Sr D Benito Lando y no habiendo entrado en esa venta los ganados finos de todas las especies, el propietario nos ha autorizado para proceder a su realizacion en remate publico, en lotes pequeños al gusto de los compradores.
Como las haciendas de que se trata son casi en su mayor parte finas y cuya venta demandara mas tiempo necesitandose como es consiguiento mas de un dia de remate, y en el deseo de que los señores que quieran asistir a el, puedan hacerlo con toda comodidad, hemos creido conveniente fijar la gran feria para los tres dias de Carnaval es decir los ultimos dias del entrante mes de Febrero, y en oportunidad anunciaremos el dia y hora de la salida del tren espreso. El establecimiento Blandengues es celebre por sus crias finas y aunque nunca ha presentado sus productos en los remates que se dan en la ciudad.
Todos los criadores de la Republica saben que alli no se han encomiado dinero, ni se han ahorrado gastos para estar a la vanguardia de los primeros establecimientos del pais, y asi es que desde muchos años atras se han introducido alli los mejores animales que se necesitaban para el refinamiento de las razas tanto lanar como caballar, yeguarizo y vacuno de todo lo cual hay animales especiales, ya sean puros como mestizos.
Las especies que existen en 'Blandengues' se componen de majadas, tipos de cabaña en ovejas y padres puros Rambouillet de la Cabaña Imperial, hoy Nacional de Francia, majadas Lincoln servidas por carneros puros importados directamente de Europa, majadas finas Rambouillet, yeguas puras Normandas, yeguas pura sangre de carrera importadas de Inglaterra. En esta raza (la yeguariza) hay animales notables y de gran merito, de distintas razas, servidas por magnificos padrillos puros introducidos directamente de Europa y lo mejor que ha venido al pais.
En el ganado vacuno mestizo hay animales de mucho merito, y en cuanto a lo puro, hay vacas, vaquillonas y toros de la raza Durham que estamos seguros no dejaran nada que desear. Al anticipar este aviso a los senores hacendados tanto de esta Republica como de la Oriental e Imperio del Brazil, lo hacemos con el objeto de que se vengan preparando para este remate que podemos reputar como el mas importante que se ha dado hasta hoy entre nosotros de ganados finos de todas las especies.
Hoy que esta demostrado de una manera evidente que la riqueza de nuestra tierra consiste en la ganaderia, y que cuanto mas nos dediquemos a su refinamiento, tanto mas aumenta la riqueza publica y privada por el valor que toman las especies y los campos, nos parece oportuno llamar la atencion de los Sres Hacendados, para que con tiempo se preparen a adquirir animales finos de toda especie nacidos en el pais e importados directamente, ya aclimatados y que no se ofrecen todos los dias en venta.

The Course of Medicine
How Patients are deceived.
Most persons seem to have the impression that all so-called Liver Medicines go straight to the liver. Medicine, like food, goes immediately to the stomach; a portion mixes with the substances, and acts as a cathartic, while the remainder enters the circulation, and takes a large route through the blood, finally to the liver, and we may add, as a rule, does no permanent good, but rather leaves baneful effects, and begins a pernicious practice, which, if followed up, will eventually destroy the stomach and fasten disease in the system, never to be eradicated.
Not so, however, with the Holman Pad. It works direct y upon the liver through the pores of the skin, quietly, thoroughly, and without inconvenience, performing a most important function. And we add this remarkable statement, challenging refutation, that in its extensive use by and including all classes of persons, from old age to helpless infancy, not a single case of injury has occurred, while 90 per cent are cured.

THE NEW BOULEVARD.

In the effort to describe a handsome circular road around the Municipal limits of the Capital, the Municipal Engineer has encountered many difficulties. The first line proposed ran through back slums and purlieus of the town, bisecting soap and candle factories, brick kilns, matadero yards, ball alleys, graserias, etc, and bringing the line out by the once renowned Velez Sarsfield quinta, and over the very corner on the Flores Road where the inside party mounted their outside barricade. To draw the boundary line through such districts was to abandon 'in toto' the dream of a beautiful circuitous Boulevard that would serve for a fine carriage drive for the opulent and delightful promenade for the proletaire. Luckily, this line was given up, and then a cordon was drawn a few squares further out, that when it came to be scrutinized it was found, would level Mr Escribano Carvallo's beautiful villa, and run right through the dining room of Lambarè house, besides splitting up Dn Ambrosio Lezica's and Sr Duportals quintas. A more careful study of the neighbourhood by the Municipal Engineer has led to an improved line, which, after some discussion has at last passed the Municipal board and now is forwarded to the Nat. Government with a view, if sanctioned by the Minister, to be laid before the Prov. Chambers.

As we have no public road in this country 60 metres wide, the proposed scheme can neither suffer or improve by comparison, but taking, for instance, the Sarmiento Avenue in the Palermo Park, which is about 50 yards wide, we can catch a glimpse at the beauty of an Avenue or Boulevard 60 metres wide, with trees on either side and double side walks as in Paris, extending from the Alsina Bridge to the Maldonado bridge. Some writers go so far as to say that a people's civilization can be aptly measured by their roads. If we are to stand by such a measure, then in truth the Dublin shop-keeper who asked if there were any pianos in Buenos Ayres, was not far astray, for our roads are truly shocking. Even Flores, the delightful Village of the Plain, the beau ideal of quinta life, is impassable in its cross roads and lanes after a day's rain. We still have 'pantanos' out there that would swallow up a bullock cart, and in fact to live out there you must reside on the road, the Appian way of Buenos Ayres, or keep a bullock cart.

The effort, therefore, of the Government and the Municipality to endow the new capital with a pleasurable promenade meets every support, and we trust that the lines now drawn from the half-built church near Caballito, on the Flores Road, to the Alsina Bridge in the South and the Maldonado Bridge on the North, will meet with every public support and approval.

Caballito is a lazy little hamlet that has no past and never can have any future. Its once splendid college, the 'alma mater' of half the prominent Porteños of the day, is closed, and to what uses now to apply it is the rub: breasting the new Boulevard it would, of course, at once become the Star and Garter of Buenos Ayres and form a convenient Richmond for people who never saw the Thames. The forgotten cabbage slopes of the British Hospital would at once become the sites of beautiful villas, with views more commanding of the surrounding country than those of the committee who made the purchase. The proposed boulevard would run behind the baker's shop on the Flores Road, passing through that Eden of former days, Pardo's quinta, merely macadamizing those rich fields where the milch cows of an editor have periodically fed, but not touching the house and park, at present occupied by Myles Passman, Esq. The line crosses before the little cottage where Judge Leguizamon is spending the present summer, and breaks down the fences of the large chacra of Mr. del Valle, the former owner of the land where now stands the Wanklyn quinta. Skirting an old blind lane that runs from the shebang hard by Dorr'shouse to the Gauna road, the new boulevard cuts right into the quinta lands of Dn. Adolfo Bulrich and Dr. Lausen, tearing through the doctor's orchard, crossing Calle Cordova. Just leaving the Nazar quinta to the left it bisects the gardens of the widow Librero and the green fields of Messrs Carreja and Comacsbri, until reaching the sedgy banks of the Bendemere's stream of the Plate the little streamlet Maldonado, where for the present we must leave it. The boulevard running southerly from the Flores-road cuts through the college garden where beneath the trees boys have so often played and learned their lessons for the coming day: it then crosses through the chacra quinta of the late Mr. Montarce, and passing in front of the British Hospital land and with the powder-house in front, it opens upon a splendid country with a view of Santa Catalina, Lomas de Zamora, Barracas and the Boca. The road runs through the fields and 'potreros' of Messrs. Conde, Lamos, Salguero, Benevente, Figueros and Pinero, and is at last brought up at the bridge that could not be sold by auction the other day, called the Alsina Bridge.

In giving our readers this hasty sketch of this new road, we have had to employ the names of former owners marked on the Flores map; but much of this property has of late changed hands and belongs to other parties.

The town, village, or hamlet of Cabillito will remain to the Province, but all property inside the boundary will, of course, be in the Capital, which, it is presumed, in the new order of things will add much to its value.

There is, perhaps, nothing more needed in this town than a boulevard such as the one proposed. Good walkers might on a fine holiday make the tour, striking out on the Calle Santa Fe to the arroyo Maldonado, then crossing to Caballito and thence to the Alsina Bridge by the new boulevard, and if that unfortunate Alsina Bridge road is repaired, the sojourners may get back to town by Barracas or the South Market.

President Roca, who went on horseback the other morning from Flores to the Alsina Bridge, and thence to the Corrales, was astonished to find the roads down there in such a truly shocking state, and wondered that the Government of Buenos Aires would allow such an invaluable highway to fall into such neglect. Let us hope that we have survived the cloudy era of pantanos and bad roads, and that the improved fortunes of the Plate will be reflected in fine boulevards, avenues and roads, worthy of a people who are surfeited with all the other elements of a rapid civilization.

For the amusement or information of our readers we hold at our office a plan or map of the new boulevard and the country through which it is to run, and invite friends to see it. We opine that those who have fields and cabbage gardens in the proposed route, will do themselves and their heirs a good turn by offering the land free to the Government for the boulevard in question, so as to secure an avenue which for generations to come must be the boulevard of this city.

ALVEAR VERSUS CORDOBA.

Owing to the large number of foreigners now settling on the new camps in Lincoln, Rojas, Melincue, Gainza, Rio Quarto and other points, increased interest is taken in a lawsuit which is now going on before the Supreme Federal Court, in which Dr Alvear is the plaintiff and the Province of Cordova the defendant. Within the last week we have given our readers a summarized sketch of those proceedings, which, to the honor of the Supreme Federal Judges, show a careful protection by the Court of the rights of the estancieros there. The pretentions of the Province of Cordova were merely based upon an imaginary Cordovese frontier line that stretched into this province, and might possibly, if not checked by the court, be brought up to the town of Rojas. But the judges of the Supreme Court are determined to protect the people who by their enterprise capital and industry are giving value to those camps, and the audacity of Cordova calling an auction of lands in this province and selling same over the heads of the estancieros who have paid their money and received their titles of same from the Government of B. Aires, has been checked by the demand of Dr D Diego Alvear who, by virtue of a concession from the Government of Santa Fe, has founded a flourishing colony thereon called Teodolina. To deney the existence of this colony is to deny the existence of the houses and chacras and farms and crops thereon, and the place is actually connected with Rojas by a diligence, has a church, school house, plaza; and people going out to inspect the lands outside invariably stop at this colony, where they get horses, &c, for the journey. It appears, in the evidence given before the Court by Dr Alvear, a declaration signed by Juan P Ferreira, a well known resident of the colony, was handed in but, by some mistake, his name was written Ferrare. About this clinical error there has been a great hubbub, as appears by the following letter from Dr Alvear, which reminds one of that celebrated case in Pickwick, where the judge took the man's name down wrongly and was about to imprison the witness for daring to correct his own name. The whole affair is a subterfuge; everyone who has visited those camps knows well the Teodolina colony exists on the land, and with a population of 1,200 people. Estancieros and others watch with great interest the trial of this case, and we, for our part, tender Dr Alvear our best thanks for bringing the Cordoba Government up before the Courts, and manfully asserting the rights of hundreds of estancieres who have been much inconvenienced by the Cordoba Government calling an auction of their lands and selling property to which it has about as much title as to our printing-office. The following is Dr Alvear's letter:—

Can be used with COLD WATER. Sole Agents MOORE & TUDOR, Maypu 95 and 127. Beware of imitations and falsificatio

"Mr. Editor,

"I beg to contradict a statement published in to-day's *Nacion* on the Cordoba land question.

"My case is unimpeachable, and I have handed in proofs of possession, which the Cordoba representative stated did not exist: the sale certificates of the Government of Santa Fe, the plans and documents wherein Cordoba is pledged to respect my rights, and other documents, with a letter from the Commissary of Immigration and a statement of the diligence manager of Teodolina on the lands, which the Cordoba representative also refused to believe. I presented also a letter to strengthen my case, not wishing to raise alj Junin and Rojas as witnesses of my possession.

"At foot of one of the letters I received, was one from Don Juan P Ferreira or Ferrare. I omitted the P. and wrote Ferrare, instead of Ferreira, this is an error in the name but not in the declaration, but these declarations are not necessary, since my possession of the lands is notorious, on which a town of 1,200 inhabitants is situated, besides many estancia properties, which are far more eloquent proofs than mere declarations, witnesses, titles and proof documents from the Government of Cordoba.

"There was no object whatever in changing the name Ferreira to Ferrare, when referring to a witness who is a well-known individual; I myself may have committed the error in the incorrect spelling of the name. It matters little whether the name is Ferreira or Ferrare; the declaration stands and there is no contradiction in same, agreeing with all other witnesses and documents.

B. Aires, January 17th 1881

THE NATIONAL BANK.

DIRECTORS' REPORT.

Gentlemen

The Directors are happy to be able to inform you that the Bank has progressed during the past year. The result would have been better but for the political events of Feb. and June last, in which months the Bank underwent a hard trial, from which, however, it came out triumphant—once again proving its solidity.

In June the Provincial Government interfered, through the Police, to prevent us handing to the Nat. Government the deposits the latter had with us. The news ran like wildfire and caused depositors to withdrawn their money; and in Entre Rios, the holders of our notes rushed to convert them; but the Bank met all demands and fully sustained its credit, both at the Head Office and the branches. In this respect, the Board feels bound to declare that the Nat. Government, the Governor of Entre Rios and the managers of some branches—especially Rosario and Gualeguaychu—lent efficacious aid in overcoming the difficulty, each in this sphere of action. These lamentable events reduced considerably the Bank's profits during the year.

Apart from them, however, the progress of the Bank has been satisfactory, as its credit has increased, and the circulation of its notes in the provinces also, in spite of the fact that monetary anarchy still reigns there, and there is a forced currency of the Bolivian notes of other banks. The circulation and credit of our notes is increasing in the provinces because they are converted punctually on demand. The movement of capital, deposits and drafts is also increasing considerably, and that in discounts at Head office and branches.

The Board, wishing to render an exact account of the prosperous state of the Bank, examined carefully the bills 'en gestion' and the present value of the 'Titulos y Inmuebles': calculated the loss already incurred on them, and also what might be realized on them, as well as on the 'Titulos' &c, and wrote off $33,210 fts. in legal currency and $593,779 fts in gold, covering this rebate by the account 'Debtors in Arrear', and $520,000 fts gold from the profits of 1880: so that the credits 'en gestion' have been reduced to $37,497 fts legal tender and $581,820 fts gold, whereas they were $1,565,400 in 1876.

The pending credits now figuring in the account the Board considers good and recoverable, and the 'Titulos y Inmuebles' are set down at their current value, after allowing for the loss on them. For instance, the site in Calle Santa Fe, taken in 1876 for $24,752 fts. is estimated in the balance sheet at $6,000 fts.: and the Cerrito estancia, taken for $218,741 fts, at $160,000. fts.

The sum spent by former Boards on the Bank building has also been struck off its cost, which now appears in the balance as $ f.300,000 instead of $ f 1,305 legal tender and $ f 333, 655,as formerly.

These explanations show the great importance of the reductions made, and the Board expect no further loss on the property and other securities now held by the Bank. On December 31st last the Directors determined to convert the Bank's capital into gold at 28-45, as a final means of clearly defining its position.

In former balance-sheets comment was made on the entries 'Exchange Operations' and 'Transfers of Money.' The Board has balanced those entries with the $ f.450,000 recognised by the Government, sanctioned by the Senate, and which will, doubtless, be approved by the Deputies this year.

From the beginning of 1877 when the Bank was reorganized, to December 1880, the Board paid regular yearly dividends and saved the capital; and this achieved and the actual and probable losses allowed for, the shareholders may fairly expect in 1881 dividends that will be in relation with the nominal value of the shares. For the future dividends will be paid half-yearly.

The branches were reorganised in 1880. Dn. Salvador Gomez visited and inspected some of them, having kindly volunteered to do so, and Messrs. Benegas and Sastre, managers at Rosario and Gualeguaychu, took tbe others in hand. Several errors were corrected and many changes made in the staffs. The branches being now in the hands of competent and honourable men, the Directors hope to see the effect of these reforms in increased profits in 1881.

The great increase in the note circulation can be seen as follows—

1877.....	$f. 246,724 03
1878.....	402,910 34
1879.....	980,218 59
1880.....	1,428,590 93

If the Mint, soon to be opened, coins what is suitable for the country, our circulation, which is now impeded by the jumble of foreign coins and inconvertible notes in the provinces, will increase three-fold every year.

Most of the circulation has taken root in the Litoral, owing to the notes issued in Entre Rios and Corrientes being convertible in either, without commission, a step adopted by the Board to facilitate business and the circulation of your notes. An agreement was also come to with the National Government in reference to notes taken by the Andine Railway: New emissions were ordered for the Interior, having regard to the coin in circulation in each province. These steps, combined with better management at the branches, and the opening of agencies, have increased our circulation and modified the difficulties in its way.

The profits at the branches were:

1877.....	$f. 47,771
1878.....	97,586
1879.....	172,232
1880.....	207,274

This year $162,001 had to be deducted from these profits to meet cost of installation, commissions, furniture etc in 1875. In spite of this reduction, there is still an increase of profits over 1879 of $f.35,039.

The branch at Gualeguay gave the best result in proportion to capital of all—then Gualeguaychu, Concepcion, Parana, San Juan and Rosario.

The movement of capital was large and the increase in discounts, deposits and drafts of the provinces on the Head Office beyond all expectation. In 1879 the provincial drafts were $f. 2,867,367: in 1880 $f.3,806-223.

The discounts were $f. 5,960,192, and deposits in account current at fixed dates $f. 1,873,505, both a notable increase over 1879.

These figures afford the most eloquent proof of the Bank's progress. It must be borne in mind that the Bank has 17 branches which absorb almost half its capital and oblige it to keep a reserve, not available for discount, at the Head office, to meet the drafts of these 17 Banks.

The Bank's notes cannot circulate in this province, under agreement of Sept. 1876, but it fulfils its chief mission—to serve the trade of the Interior and convert the notes circulating there.

Making all the reductions already referred to, the net profit is $f. 259-078, and the Board recommends a dividend of 3 pats per share payable March 1st. If sanctioned, the Reserve Funds will stand as follows:

	Curso legal	Metalico
Balc. on 31st Dec. 1880.....	$f. 259,078 50	
Debits in arrear....	5,491 36

EDITOR'S TABLE.

The newest thing out yesterday was the heat. 'The hottest day yet' was the general verdict. In Printing House Square we managed to keep delightfully cool under the influence of a large hamper of the most delicious peaches, which we received by first train from the Tigre, sent by our kind friend and subscriber Mr Calzetta of Calypso Island. Such peaches! It is more than worth while to run down and breakfast at Mr Calzetta's hotel to get these peaches for breakfast.

A telephone fever has suddenly seized poor Buenos Ayres. We see several more Richmonds in the field besides Mr Keyser and Cap. Mantou. We publish a letter from the former in another column. By the way, his concession is for 'ten' years, not eight as we said yesterday. We hear that a telephone service with Montevideo is on the tapis. We'll get lots of the very latest news out of O'Gorman then.

A telegram from Antwerp in our leading columns announces the bottom fairly out of the wool tub there. One franc sixty centimes for Buenos Ayres 'primera' is enough to bring all the 'acopiadores' in the Plate to a premature grave, and turn the hair of those estancieros who have not yet sold their wool grey beyond even the power of Mrs Allen's or any other Restorer to set right. War in the Spring seems all but certain between Greece and Turkey. Poor old Europe is in a sad plight just now.

'There is nothing like leather.' This axiom is especially true of the leather tanned under the new chrome process which is now coming into use in Europe, and which reduces the time required for preparing a hide to about a dozen days, instead of the months necessary under the present process. We were favoured yesterday with several samples of the new leather, and invite all those interested in the matter to call and see them. There is one piece of walrus hide that would answer as well as iron for casing a man of war.

The German Literary Society held its General Meeting on Thursday evening. The report and accounts were adopted, statutes revised, and new Committee elected, the Rev. Mr Shede being re-elected President, and also Mr Lederer, all the other members being new men. We are glad to learn that this young association is progressing most favourably

There will be Mass and sermon in English to-morrow at the San Francisco Church, as usual, at 1 o'clock.

The horses under a private carriage bolted on Thursday evening at Plaza Once, just opposite Mr. Garrahan's office, and went down the hill towards Almagro like mules after breakfasting on fireworks. At the bottom they charged the nearest house full tilt, and, after the shock, looked round as if they were suffering from nervous headache. The carriage was overturned, the coachman sent whizzing towards Moron, and a lady in it thrown out, but, as she was but very slightly hurt.

People seem to have forgotten the West Coast completely. Ireland is now the theme. The telegram announcing that the House of Commons was to take up a 'very severe' Bill about Ireland on Thursday evening shows that the real tug of war is now at hand. From what we read in the organs which represent the intellect of England, public opinion is daily becoming more convinced that coercion is not the way to settle the Irish Land Question.

There was something like a food riot amongst the 'daily bread' men who started for home and dinner on Thursday by the 5.35 p.m. train from Plaza Constitucion, which was detained exactly 34 minutes two and a half seconds at the Lomas station, an 'entreacte' not in the time-table. The stomachs of the unfortunate passengers, amongst whom was Governor Romero and his Finance Minister Dr Demaria, yearned awfully for the boiled leg of mutton and trimmings getting cold or overdone in their absence, and an indignation meeting on the roofs of the carriages was mooted; but just as the hungriest man of the lot was about to take the chair, the train moved on, and this is all we have heard about it.

A provincial colleague tells of a dozen young ladies who started from Parana last week to become nuns in this city, but on arrival they exercised their sex's privilege of changing their minds, and now say they will get married. We hope so, but it is consideaed the correct thing for ladies to wait to be asked.

Our colleague the *Nacional* is now following in the footsteps of the *London Times*, and in last night's issue we have a plan of the Panama Canal, that has taken all the other newspaper editors of the town by surprise.

A flash of lightning disposed of three men in Tucuman last week, killing two on the spot and leaving the other a raving lunatic from sheer terror.

The Nord America has brought 700 emigrants. Most of them go to the colonies in the Gran Chaco; rather a warm corner in this weather.

We shall be happy to try to find space for the interesting particulars about Patagonia to which an Argentine friend refers in his note of yesterday. Patagonia is destined to be a great territory some day.

A Montevidean paper mentions as rather a curious fact that the war on the West Coast has brought little or no promotion to the officers of the Chilian army, who are all, or nearly all, in the same rank as when the fight began. We see nothing very curious in it, only that the Peruvians are very bad shots and that the Chilian officers must be decidedly robust not to contract disease in such a campaign. The latest Peruvian report is that the loss of the Chilians at Chorillas and Miraflores was 13,000. Pure nonsense.

The Chief of Police has given the officials of that department a caution, by strictly prohibiting the 'thou' and 'thee' style of address during business hours. 'Usted,' the English translation of which we believe is 'your worship,' or 'your washup,' as pronounced in Bowstreet, is in future to be 'de rigeur' in the Police department. As, we suppose, none of the employees are Quakers, the new rule will improve their manners without clashing with their conscience,

The friends of Mr. Albert Bussmeyer will be agreeably surprised to learn that his health has been completely restored, and that we may welcome him here in a month.

Let all Her Majesty's subjects in Buenos Aires keep themselves disengaged for Thursday evening next, for the grand performance by Guillaume's circus troupe, at the Politeama, for the benefit of the British Hospital. The programme will surpass anything the company has ever before attempted.

The Sunday School will be held in Flores to morrow at the usual hour.

SCOTCH CHURCH.

To the Editor of the *Standard*.

Dear Sir,

I see in your issue of Sunday, the 23d inst., a letter from Mr. R. B. McKinlay on the Scotch Church.

While he seems to agree with the tenor of my former communication, he thinks that it has missed its aim, from my having adopted a 'nom de plume.' It may be so, but I can scarcely imagine that it has, when it has brought to the front such a man as Mr. McKinlay, whose energy of character and honesty of purpose are known to all.

To show my sincerity in the matter of the reformation of the school, I am willing to give £50 a year towards it, and if nine others could be got who would each give an equal amount, I think that for £500 a year a first class master might be obtained.

Hoping that the present movement may soon take some definite shape,

I am,

Dear Mr. Editor,

One of Them.

ON 'CHANGE.

January 28, 1881.

The gold market ruled firmer to-day than yesterday, the chief business doing being for the end of the month. The month's liquidation is now so near at hand that it is not probable there will be any great change in the rate for the present. Gold opened cash at 29.30, and closed at 29.25, but at afterhours the rate again hardened, and buyers were offering for Monday 29.30 at 5 o'clock. Cedulas rule very hard at 87½, and they say the reason of the advance is that the stock is scarce, pretty much like all stocks, and the brokers say they rarely remember a time when there were fewer stocks offering for sale.

The new board of the Provincial Bank will not give out any more Bonos in discounting bills, which, of course, at once stops the business doing in that stock. Roads and Bridges buyers at 90, sellers at 91, one sale of National Bonds, 26,000 at 82½.

The great news on Change was from the Public Credit Office, the foreign coupons being paid to-day in gold instead of silver. This is the first time since the closing of the Oficina de Cambio that the Nat. Government has paid gold, and we congratulate Mr Cortinez on the event; although the amount is not large, it is of happy augury and points in the right direction.

To-day the bids for lighting outside the lamps with kerosene for the year were heard by the Municipal Committee, some 8 to 10 parties attended, and the bidding which began at 50 m/c per lamp closed at 31 p. lamp, which is 11 m/c cheaper than what the Municipality paid last year; Sr Arnaeta's was the lowest bid. The Municipal Board meets tomorrow at 2 o'clock.

Exchange was done at 49⅝ London, 5.26 Havre, and 5.25 Paris, not much offering in the market.

A meeting of Municipal bond holders is about to be held on the Bolsa to protest against the conduct of the Provincial Government in not paying the coupons.

Mr Olivera was welcomed on Change on his return from the camp which he reports in splendid condition, sheep and cattle very fat.

The French mail Equateur entered Montevideo to-day, letters in the morning.

Telegrams from Europe received to day announce some fresh failures on the Continent. As will be seen by our Antwerp telegram, the wool auction closed badly, which leaves very little for holders to hope.

The failures of wool acopiadores in the camp is the talk of the Bolsa, as numerous Irish and English sheepfarmers have sold their wool on contract, receiving some money as advance on same. We have no hesitation in advising them all to return the sales and cancel the contract rather than to have to deliver their wool to the concursos, a step that will be tried, but which our countrymen should be on their guard against.

We have received by the Chilian mail a very flattering paper on the trade of Chile, which speaks wonders for that country. Mr M G Cormona, Chief of the Statistic Office, Santiago, in reviewing Chilian trade for 1880, says briefly—

"At the close of this year, memorable in a thousand ways for the Republic, it will not be out of place to take a retrospective glance at its commerce during the most critical period of the war it still maintains against the republics of Peru and Bolivia.

"In this year there is still presented the surprising phenomenon, without precedent in history, of a country in a state of war, which entered upon it poor and disarmed, strong only in its credit and in the unitedness of its sons, prospering in trade and industries, and at the same time preserving unharmed its political liberties in the midst of the most profound internal order and peace.

"During the nine months ended September 30th there was a slight falling off of 463,871 dollars in the exports of agricultural produce (barley, flour and wheat); but this decrease was more than compensated by the considerable increase in the exports of all kinds of mineral produce during the same period, which amounted to 4,691,733 dollars in excess of the previous year.

"The total value of expo ts in 1880 may, therefore, be estimated, almost with certainty, at 40,000,000 dollars, if there be taken into consideration the circumstance that in the subjoined tabular statement of the 9 months of 1880, the exportation from the ports of entry of Antofagasta and Tocopil a, which also comprise the minor ones of Mejillones and Cobija, is not included.

"With respect to the importation of foreign merchandize, it may be calculated that in 1880 it will exceed 26,000,000 dollars, as may be seen on reference to the subjoined table of Custom House receipts.

"The definite result will be an increase in the total of exports and imports over 1879 of about 3,000,000 dollars, or 68 millions in 1880 against 65 millions in 1879."

The news from the Wool Plazas is not favorable, very few sales, and the whole country outside up in arms at the failure of the acopiadores. There is really nothing surprising in this matter, and we have not seen the worst yet. Good wools, however, in the market sell at very fair prices, and some well known exporters who held back are now buying.

The latest advices from Liverpool about salted hides by circular are as follows:

"A large sale of Foreign Hends (15,000 to 20,000) is reported from the West of England at reserved prices, but which are presumed to be rather in buyers' favor.

"A moderate business in Antwerp at about previous values. No further change of moment in Havre.

"The stock market as usual presents the same dull aspect, the brokers remain perfectly indifferent and scarcely any business doing 10,000 Adicionales were sold at 28 o/o whilst 20,000 more were transacted at reserved rates for the middle of next month.

"Exchange is not altered; there have been some drawers on Rio at 10$800 but no takers.

"Wools are at a stand-still, and holders and buyers cannot agree; the bad news from Europe has greatly frightened buyers. Saladero produce is weak. Some sales of tallow have been effected from M. MONTEVIDEO

Dear *Standard*

Life is growing most monotonous in the Mount: the short-lived and idle rumours that fly about are futile attempts to enliven us: lethargy alas! holds us in its grip, and all the 'canards' spread amongst us cannot remove the narcotic influence in the atmosphere. There is no revolution to wake us, no invasion to frighten us, no duel to amuse us. Society has grown painfully virtuous: there is not even one intrigue. Formerly a periodically fashionable scandal would leak out, to our intense satisfaction and delight, and afford a witty 'verve' to conversation, like truffles and high game give enhanced relish to a tete-a-tete dinner or supper. But- I am sorry to say, all these delightful appendages of modern living have gone out of fashion. As a last resource we lazily linger on the threshold of the cafe or of the confiterias, wistfully gazing at the high-heeled boots and pinched waists of the fair postprandial loungers, whose extravagance is the greatest delight to life's unwedded spectator. Verily there is philosophy in watching people pass; here we see a fair one fit to stand for a Venus de Medici, whilst her companion vies with a Cornelia; the Rhine and the Danube are blended with the rich hues of the Ebro and the Guadalquivir; you meet the handsome brunette next to the piquante blonde.

Montevideo formerly enjoyed a reputation of liveliness and ease, which has disappeared with the Napoleonic regime of Latorre and Courtin. There is a placid umbrella-under the arm and connubial-bliss looking style about Montevideo at the present moment, which is rapidly merging into mediocrity: there is no greater drawback than to live in a domestic looking community, where the people go to bed after tea, get up at the peep of dawn and are continually seen walking about with their progeny, in the shape of half a dozen children. It is a healthy sign for the country, but it is a melancholy perspective for a bachelor; marriages are on the increase, and out of sheer despair we in vain appeal to Diana's vows and Endymion's happiness and label our trunks en route for Buenos Aires, where civilization and easy living have, it is said, made great strides ever since the June revolution filled the pockets of many fashionable swells. When true hearts lie withered; when life is a blank; when Vestal qualities are at a discount; when the Eleusinian mysteries are ridiculed and everybody is boasting of his Lares and Penates, it is high time for philosophy to state that the gods are departing and bachelors' privileges with them.

Our last anchor of hope—the Press—is not up to the mark. The newspapers, formerly so full of salt and wit, are now drowsy and insipid: all the editors are married men, with no other prospects in life than those which insure their own and their families' comfort: they will persist in writing politics, preaching very fine morals, and filling the papers with figures people care nothing about. Three newspapers, I think, have been started of late, and there is not a single interesting paragraph in them, with the exception of some notice or another of an unfortunate fellow leading a fair spinster to the hymeneal altar or wedding some 'simpatica' widow, with three nice children and plenty of money, Poor Horace! how he would groan had he been born in Montevideo and whetted his pen on the follies of his countrymen, as he reclined beneath the shady groves of Tibur, with a jug of wine near his elbow and Lalage dancing like a faun amongst his arbutæ. How times have changed: Montevideo three years ago and Montevideo to-day are no longer the same: the country is losing its freshness and its primitive aspect.

Sarah Bernhardt, Croizette, Pompadours and Du Barrys to the rescue! Everything is degenerating: Folly has smiled farewell on Montevideo, the goddess has fled to B. Ayres. An opera-bouffe company might yet save us from the ignominy of dullness: some wit might arise in the journalistic field and amuse us. A one-horse bull-fight once a week is not enough to enliven us: what have the people to do six nights out of the week? read Endymion or play upon imagination whilst wading through the pages of a trashy novel. If we only produced a Dr Wilde to record Montevideo 70 years ago! to tell Montevideans as he has told Buenos Ayreans, how they relinquished the chiripa, the poncho, the mate-cup, the sandal, the 'chiton of the Pampa, the 'tipoy' of the Guarani, the tunique of Corinna and the 'mancarron' for tight pantaloons, abominable tailcoats, prosaical afternoon teas, patent Parisian high-heeled beetle-crushers, moulded corsets, Velanciennes lace, Brussels' point, and gilt carriages with a coronet on the door and a monarchical lacquai behind. 'Tempora mutantur.'

Voltaire.

THE TELEPHONE.

To the Editor of the *Standard*,

Sir,

I have read with astonishment an advertisement published in the Buenos Ayres *Herald* of the 26th, signed by B D Manton, entitled agent of a Telephonic Company of the 'Gower Bell,' pretending to show therein the advantages of that system over 'Graham Bell's,' from which it is derived.

I am the representative recognized by the proprietors' society of the last one, and I am authorized to establish it in the Republics of the Plate, having obtained previously the legal authorization of the Department of Government Engineers of the Nation for the respective patent, giving me the exclusive right of working during the term of ten years. The company that I represent is the only one that, without any doubt, can establish here the referred-to system, and neither this nor its derivations can be established by any other.

If the author of the advertisement published in the *Herald* has acted with the idea of projecting the pretended advantages of a system that, he assures us, exists, above the other system, he is in his perfect right, as I am in mine, to show in a very few days, through a trial and conference between the Municipality and the Bolsa, that the system 'Graham Bell' is superior to all in practice as well as in theory.

But, if the intention of the author is that of making people believe that he can establish the Telephone 'Gower Bell,' avoiding the prescriptions of the law, regardless of any rights that may oppose him or the company which he represents, I am disposed to take any and every legal step in order that justice may repress severely such an abusive manner of proceeding.

Walter S. Keyser,
Authorized representative of the Continental Telephone Co. of Boston for the Oriental and Argentine Republics.
